

Based on the Law on Higher Education and the Decision no. 02-70/2 dated on 12.05.2020r. adopted by the Scientific Council, the Private Scientific Institution Institute for advanced composites and robotics (IACR), Prilep, on 12.05.2020 announces the following:

ADMISSIONS FOR POSTGRADUATE STUDIES FOR THE ACADEMIC YEAR 2020 / 2021 YEAR

I. ACCREDITED STUDY PROGRAM

1. Modern composites and robotics – 15 candidates.

II. CONDITIONS FOR THE STUDY

1. Studies harmonized with the Bologna credit transfer system.
2. Teaching is conducted in Macedonian and English language in the modern equipped premises (lecture rooms and laboratories) in Prilep.
3. Teaching maintain eminent Macedonian and foreign professors.
4. The program consists of a teaching part and the preparation of a Master Thesis.

III. CONDITIONS FOR ENROLLMENT

The right of applying for one-year studies, have applicants who have completed the first cycle academic studies in duration of four years, i.e., a bachelor's degree (240 European credits) and who graduated in the appropriate or a related study program of the engineering profession, or on some of the natural-mathematical faculties, as well as students who have completed another faculty and have experience in the field of advanced composites and robotics.

The right of applying for two-year studies, have applicants who have completed the first cycle academic studies in duration of three years, i.e., a bachelor's degree (180 European credits) and who graduated in the appropriate or a related study program of the engineering profession, or on some of the natural-mathematical faculties, as well as students who have completed another faculty and have experience in the field of advanced composites and robotics.

IV. DOCUMENTS FOR ENROLLMENT

- The original or a notarized copy certification of the diploma for completed first cycle of studies (candidates who graduated abroad shall submit verified foreign degree - notary certified);
- Curriculum vitae (CV);
- Certificate of passed exams;

- Certificate of citizenship (original or a notarized copy), foreign students submit a translated and a notarized copy of the travel document;
- Confirmation of knowledge of English language;
- Other documents at the request of IACR.

V. TUITION

The amount of tuition fees per semester: 750,00 Euro (in words: seven hundred and fifty Euros), in denar counter value, according to the middle exchange rate of the NBRM (National Bank of the Republic of North Macedonia), on the day of payment. Foreign students pay twice as much.

VI. REPORTING OF THE CANDIDATES

The enrolment lasts until 15.10.2020.

VII. TYPE OF STUDY

- "Advanced Composites and Robotics", postgraduate one-year studies - 60 ECTS credits
- "Advanced Composites and Robotics", postgraduate two-year studies - 120 ECTS credits

VIII. SCIENTIFIC NAME OBTAINED WITH THE STUDY PROGRAM

Master of Science in the Field of Composite Materials MSc.

Note: The Number of candidates is limited to 15 and enrollment will be done after the criteria and to fulfilling of the quota.

All interested candidates for more details can contact the department for enrolment of students:
